Hi Undine,

Could you resend the revised fact sheet to me? When I click on the version you sent around for concurrence I get a message saying the document could not be found. ???

Thanks,  
Greg

## Kipka, Undine shared a file with you

I hope you will have had a good Thanksgiving holiday by the time you see this!

Please see draft responses to the SFW comments from the first public notice period of the air permit.

Tom Olivier and Tahani Rivers have reviewed and provided edits (in track changes) on the visible emissions monitoring responses, and Annamaria Colecchia from R2 is reviewing my draft

response on the 200 hour WTG & OSS engine limitation.

Thanks in advance for any thoughts and edits.
